15 SERIES ECE R65 LED Lightbars

At only 53mm tall, the 15 Series LED Lightbar offers a warning system that combines high intensity LEDs with a modern, low profile chassis and aerodynamic styling. In addition the The all new reflector style LED modules are ECE R65 approved and available in 2 versions; 2 LED/R65 Class II and 3 LED/R65 Class I.

Features and Benefits

- Low profile aerodynamic styling with high intensity ultra bright latest technology LEDs
- Available in six standard lengths
- Low current draw (less than 20% of a standard halogen lightbar)
- Long maintenance free life
- 360° light output with increased dispersion at peak output
- Rigid aluminium base
- Toughened polycarbonate lens
- Protected against water and dust ingress
- All 15 Series lightbars shown standard bar options, other options are available on request
- All with ECE R65 flash pattern and cruise function built in
- All models shown are R65 Class I, Class II models are available on request.
- Amber top lenses, LED alley lights and LED worklamps are also available on request
